

Technical drawing of a 100mm diameter water meter, showing three views: top, side, and bottom.

Top View: Shows the internal meter mechanism with eight flow-directing vanes. Two horizontal inlet/outlet ports are located at the 9 o'clock and 3 o'clock positions. A callout (1) points to the right-hand port.

Side View: Shows the meter's profile with the following dimensions and callouts:

- Overall Height:** 101
- Motor Housing Diameter:** $\phi 95$
- Base Diameter:** $\phi 110$
- Internal Chamber Diameter:** $\phi 85$
- Mounting Flange Thickness:** 3
- Motor Housing Height:** 5~25 (取付有効寸法) - This dimension varies depending on the installation method.
- Callouts:**
 - (2) Points to the motor housing.
 - (3) Points to the top of the motor housing.
 - (4) Points to the side of the motor housing.
 - (5) Points to the base of the meter.
 - (6) Points to the mounting flange.
 - (7) Points to the internal meter mechanism.

Bottom View: Shows the circular base of the meter with a central mounting hole.
